Slackjeff

Hello! My name is Jefferson Rocha, aka slackjeff. I am Brazilian and I use Slackware since 2008, then i have been actively contributing to the project Slackware indirectly.

You can see how I contribute to Slackware and GNU/Linux:

- YouTube channel Slackjeff, actively talking about Slackware.
- Unofficial Writer Documentation for Slackware.
- Creator of the team SlackDocs Brasil.
- SlackCon Brasil Creator. A Slackware fest in Brazil, see: slackcon
- Maintainer some scripts Slackbuilds.
- Telegram Group Administrator: Slackware Show BR
- Telegram Group Creator: Slackware Linux Brasil
- Moderator of Latin America's largest Linux forum Viva o Linux

My hobbies

I have been using computers since 1999, as the main hoobie I love to program in (shell), recently I am trying to remove bashism from my life and use only the posix shell... Good, i trying.

I also like to create websites in the style of the 90/2000 no JS please. I'm in love with old technology 70/80/90/2000. Another hoobie is writing articles.

Life and Style

Currently married to a future Slacker @Tati my **s2** and have a son 😎😄 I love simplicity and minimalism. I always try to follow these two steps. It's hard ... I know, but I started to delve into these topics thanks to Slackware and UNIX 😀.

- **Profissional Contact**: root@slackjeff.com.br
- **Website**: slackjeff.com.br
- **ON Freenode**: *@slackjeff*

- **Telegram** : *@slackjeff*

I don't use Facebook, twitter and others spy platforms.

Simplicity above all!
